

## Household Goods (HHG) Transportation Related to the Early Return of a Dependent (ERD) - Authority on the Next Permanent Change of Station (PCS) Order (JTR, par. 052005)

**Scenario:** A Service member returns a dependent early and transports 8,000 pounds of HHG to a designated place related to that return. Upon a subsequent permanent change of station (PCS), the Service member has a weight allowance of 11,000 pounds. The combined weight of HHG transported from the designated place, non-temporary storage, and the permanent duty station (PDS) outside the continental United States (OCONUS) to the new PDS is limited to 11,000 pounds.

**Scenario:** A Service member divorces at a PDS OCONUS and transports 5,000 pounds HHG to the continental United States (CONUS) for the former family. The Service member remarries before the next PCS order effective date. Upon subsequent PCS, the Service member may transport up to, but no more than, the authorized HHG weight allowance of 11,000 pounds. Upon subsequent PCS, the Service member is a Service member without a dependent with a weight allowance of 8,000 pounds. The Service member may transport HHG limited to the authorized weight allowance of 8,000 pounds.
